handwritten mantra around
edge // \$125 each //
now \$110 each
or \$300 for three

The Gift of Presence

**Rather than a gift, give an experience:
the experience of selecting customized art.**

Mantras and intentions are very personal.

Gift your loved ones the ability to select their own mantra or intention stone. They'll experience the process of having a customized painting made in the colors of their choosing.

**Special holiday pricing on gift certificates:
Intention Stones or Mini-Mantras
\$100**

A paper certificate suitable for wrapping or emailing will explain the gift and the process of creating customized art.

**You'll be giving a lifetime of presence
with one single gift.**

limit 5 per person // only 30 available

// about these series //

// Mantra //

A mantra is energetically and manually written, scratched, imprinted, scribbled, and collaged onto each layer of the painting, just as mantras are layered into the person using them.

Color blocks are containers for the mind to explore; there are boundaries, yet the interplay between the colors magnify the positive and negative space, providing contrast for insight. Rich, bold jewel tones amplify the mantra, while metallic and iridescent materials represent the treasures waiting to be uncovered during quiet contemplation.

// Rock Garden //

Rock gardens provide a tranquil setting for self-discovery. These works contain superficial paper rocks derived from imprints of lower layers of the painting, a reference to the depths where rocks originate. In some instances, actual rocks and minerals such as sand and marble dust are added to the oil paint.

// Intention Stones //

A stone carried in your pocket is a tactile reminder of an intention. Balancing rocks to create stacks - also called cairns - is a meditative practice of patience and balance.

These individually framed black and white stones with metallic accents each represent a single intention; a collector can create a personal cairn by grouping multiple intention stones in a stack or gallery arrangement.
